

“The keywords of our research in Environmental Safety Management are
“radiation and radioactive materials” and **“radiological protection”**.
 We pursue studies from the viewpoints of **both natural and social sciences**.

Investigation of environmental radiation and radioactivity

Distribution, dynamics, and exposure of environmental radiation and radioactive materials

- **Regulatory science research**
- **Radiation safety culture**
- **Literacy on radiation protection**

使用材料

- 湯の花
- 塩化カリウム
- 乾燥昆布

- インスタントコーヒー
- わかめ
- ふりかけ

圧縮時に割れたり、液体が滲出するものが存在

Development of Radiation Measurements and Dosimetry

Development of Framework and Application for Radiation Safety and Management
